

Fuelled by compassion, driven by purpose

We are the Foundation supporting the communities served by Hamilton Health Sciences. Through donations and other initiatives, we are transforming lives and empowering communities through outstanding care and cutting-edge research.

Hamilton Health Sciences Foundation works in partnership with the community to raise critical funds that transform patient care, advance life-saving research, and support medical innovation across all stages of life. Through the generosity of our donors, the impact is felt, improving outcomes, empowering communities, and driving the future of health care in the region and worldwide.

Our mission is to raise funds and manage donor gifts for the purpose of supporting outstanding clinical care and research for the communities served by Hamilton Health Sciences.

When you give to Hamilton Health Sciences Foundation, you're helping to elevate health care where it matters most - right here at home. Your support funds advanced treatments, leading-edge equipment and innovative research that directly benefit people, not just in Hamilton, but across the region.

That's why we:

Honour our donors, hospital teams and community with respect and gratitude

Communicate openly and act with full accountability. Embrace bold thinking and fresh ideas in pursuit of our mission

Together, we can and will, create real and lasting impact.

What will my fundraising accomplish?

Your fundraising helps deliver life-saving care, fund innovative research, and provide essential equipment for patients in our community hospitals. Every dollar you raise helps expand treatment options, enhance hospital spaces, and improve care for families when they need it most. Together, we'll turn your compassion into meaningful change for people facing serious illness and injury across our region.

Equipment

- Equips care teams with the latest medical technology for faster diagnoses and more effective treatments.
- Puts vital signs monitors, portable ultrasounds, and rehabilitative devices into the hands of skilled care teams.

Research

- Fuels groundbreaking research leading to new treatments, improved procedures, and life-changing innovations.
- Empowers researchers across HHS hospitals to pursue transformative ideas that advance patient care.

Infrastructure

- Transforms hospital spaces into modern, efficient, and healing environments for patients and families.
- Supports renovations that enhance comfort, accessibility, and the flow of care in specialized treatment areas.

Staff Development

- Keeps health care teams at the forefront of medical knowledge and clinical practice.
- Provides training, certifications, and education that strengthen patient care across HHS hospitals.

General/Foundation-Wide Support

- Provides critical resources where they are needed most, helping patients and families across HHS hospitals receive the best possible care.
- Ensures hospitals can respond quickly to urgent needs, from acquiring essential equipment to enhancing patient care programs.
- Supports health care teams with flexibility to meet emerging challenges and invest in innovative solutions that improve outcomes.*
